Minutes for meeting held Friday 30/11/2018 starting at 3PM and finishing at 4PM in bay campus library.

Members Present

1. Alex Moras
2. Ryan Williams
3. Cristian Neacsu
4. Kieran Hughes
5. Ben Farrington
6. Christian Onishile

Topics

- Delays to SQLite implementation.
- Progress on Draw implementation.
- State of GUI.

Progress

- Database implementation now fully functional, however only running locally on ryan's machine at the moment, until Alex finishes implementing SQLite and repackaging so Tawe-Lib is portable and can be merged with the GUI branch. Expecting this implementation to be finished for Monday the 3rd of december.
- Progress made by Chris on the implementation of the Draw profile image. However due to miscommunication some of the progress had already been completed by the GUI team.
- GUI ready to be implemented with database. Will start on that as soon as latest database implementation using SQLite is committed to git. Some GUI features such as a Loan/Collect window and a view profile window are to be finished before the next meeting.
- Next meeting to be held Monday the 3rd @ 2PM.

ToDo

- Alex, finish implementing SQLite in replacement of a local mysql server.
- Database to implement GUI and merge into master branch.
- Profile picture drawing to be finished by Chris.
- Kieran will continue javadoc.
